

Graphs shrimp genetics 2022

07/12/2022

Figure 1: Beta diversity contrasting Organs, Genetics and Ponds

## Module A: Beta diversity contrasting Organs

Module B: Beta diversity contrasting Genetics

### Module C: Beta diversity contrasting Ponds

**Figure 2: Alpha Diversity**

Module A and B: Alpha diversity contrasting Organs, Chao1 and Shannon

Module C: Distance to centroid contrasting Organs

Module D and E: Alpha diversity contrasting Genetics (Mazatlan and Lajitas only), Chao1 and Shannon

Module F: Niche breadth contrasting Genetics (Mazatlan and Lajitas only)

**Figure 3: LEfSe heatmaps and barplots**  
**Module A: Intestine samples contrasting genetics**

Module B: Hepatopancreas samples contrasting genetics

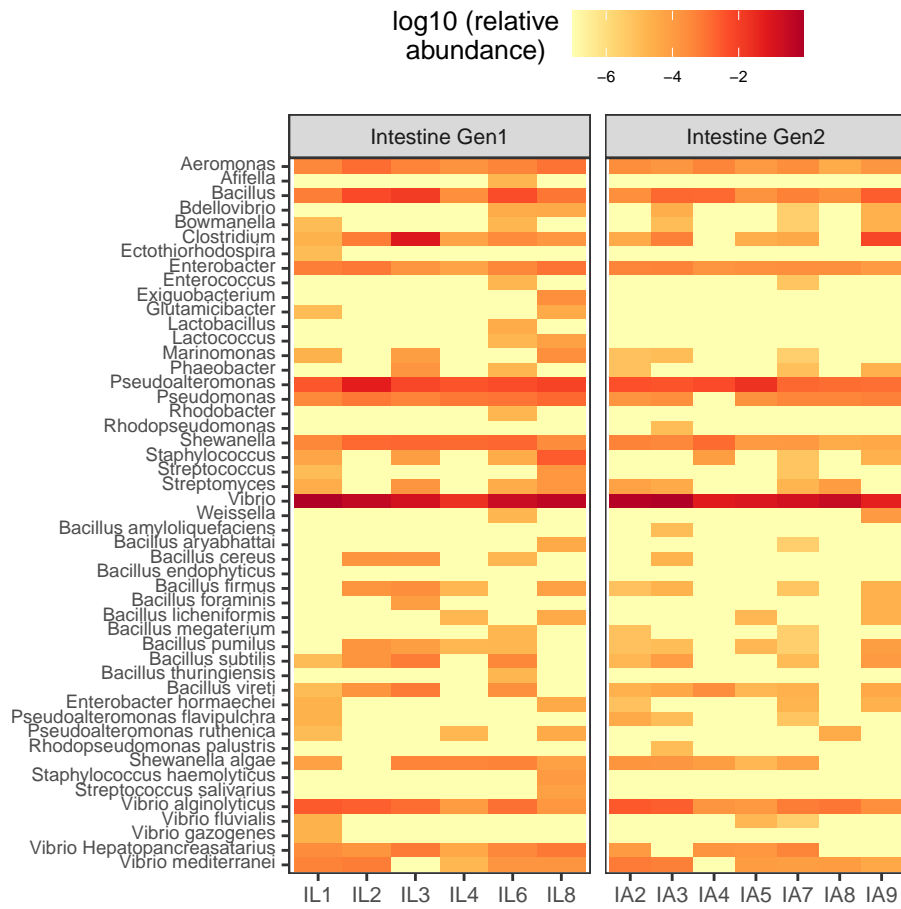

Figure 4: Heatmap probiotics

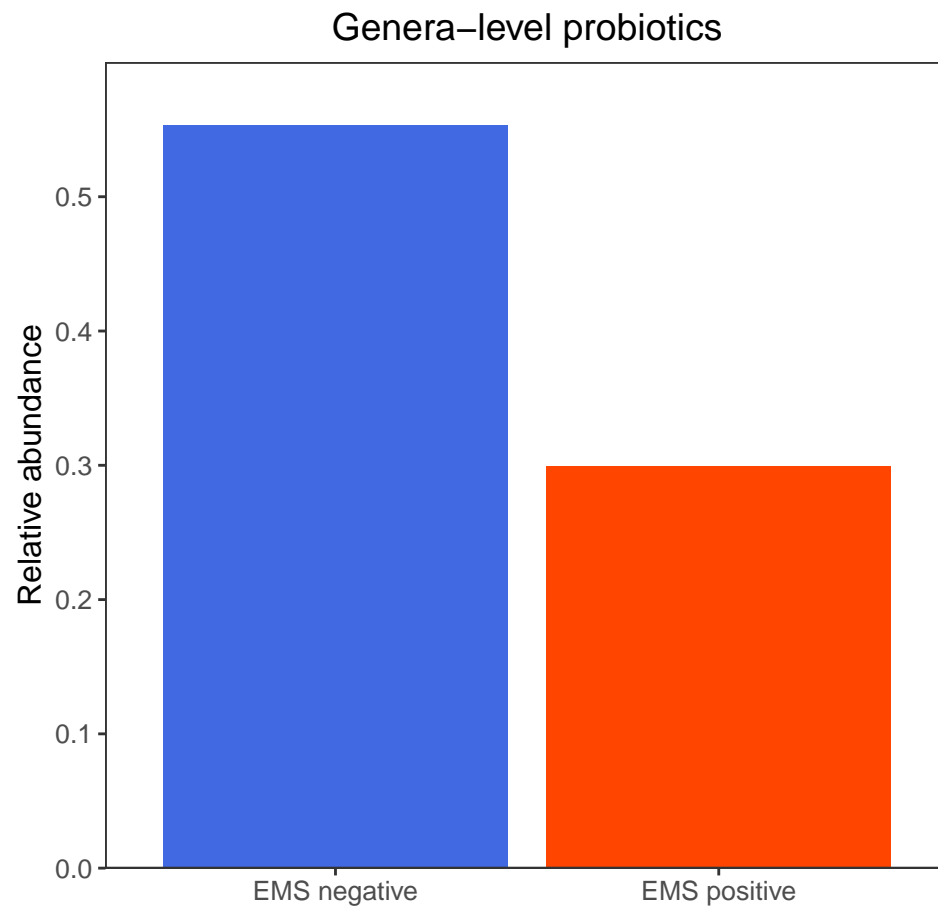

Module A: Intestine samples

## Module B: Hepatopancreas samples

Module C: Barplots with probiotics genera-level.

Module C: Barplots with probiotics species-level.
